

## RECLAIM THE CULTURE

We can't digitise our culture.

The copy of a copy won't be an original.

Something goes wrong. A copy of artistic freedom.

It's our time so it's our turn:

Capture the arts. No concerns.

It should be us who create our future.

Reclaim the culture.

Our self-conception needs an update

It's not the businessman who will create.

Forget the plastic... Real ideas are fantastic.

It's our time so it's our turn:

Capture the arts. No concerns.

It should be us who create our future.

It's our time so it's our turn:

Capture the arts. No concerns.

Reclaim the culture.
