

## COMMUNICATION LOG-OUT

We talk more and more.  
Let's share what we adore.  
But we say less and less.  
Social media is a bliss.

Empty communication is our degeneration.  
Don't talk to me anymore, more, more, more.  
Senseless creation – irresistible temptation.  
Don't talk to me... ...anymore.

We just hear ourselves.  
24/7 – that's good for health.  
We mix superiority with arrogance  
but let's stay virtual friends.

Empty communication is our degeneration.  
Don't talk to me anymore, more, more, more.  
Senseless creation – irresistible temptation.  
Don't talk to me... ...anymore.

Not anymore, not anymore.

This is empty communication...
