

## AGENTS FROM OUTER SPACE

Something came in the night.  
and trapped me in laserlight.  
They beamed me up into their spaceship  
where they succeeded to make me sick.

What is the Aliens' plan?

In the lab they started to rip me  
Of course I did not agree.  
But they didn't care  
and implanted ape hair

What is the Aliens' plan?

Agents from outer space  
came to kill the human race.

I woke up in a bay  
2 years later on a winter's day.  
And they left me a message:  
„Be happy! It's still your age!“

What is the Aliens' plan?

Agents from outer space  
came to kill the human race.
