

## THE RETURN OF THE AGENTS FROM OUTER SPACE

15 years have passed but I remember.  
I was once kidnapped in december.  
Alien-metal in my body reminds of pain.  
And I feel – they will come again ...  
... to get my brain. to cut my brain, ...  
... to eat my brain, to shit my brain ...

But I will fight till the end.  
And scream 'cause I lost of my hand.  
What does it mean? What do these signs mean?

You better run for you life again.  
Alien attack! There coming back.

Not driving home 'cause they're waiting for me.  
First thing they will do is to break my knee.  
Torture is a language these agents know to speak.  
My pain will reach just another peak...  
... when they break my bones. Cut my bones, ...  
... eat my bones., shit my bones...
